## Introduction to

# MANAGING CANCER IN YOUR WORKPLACE

## Programme

### Introduction to Macmillan

At Macmillan, we know that when you have cancer, you don't just worry about what will happen to your body, you worry about what will happen to your life. In this session participants will hear about the variety of services Macmillan offers for everyone affected by cancer. Because no one should face cancer alone.

### Impact of cancer on work

The cancer story is changing and more people are living with and beyond cancer than ever before. We will look at the issues people affected by cancer face in the workplace.

### Legislation

People with cancer are protected against discrimination by law. In this section participants will learn more about obligations towards employees living with cancer and carers, as well as what support is available to help you meet some of those obligations.

### Support for employers

Participants will hear about the different Macmillan resources that are available to help you to support employees affected by cancer.

### Talking about cancer

People often find it difficult to talk about cancer. In this section we will watch and discuss a video with people talking about how they told their colleagues about their own cancer diagnosis.
